## DISH WASHER PDW 3800A

Every Powerline machine uses a geometrically-perfect fixed-arms washing system (square system for square baskets) which provides a washing quality impossible to find in other machines. A Powerline washing system guarantees complete coverage of the basket interior including the four corners because of its fixed arms with sprinkle-type jets positioned all over the wash tank, which spread water in a spiral movement ensuring total coverage of the wash area. Since the jets don't move, every one of them sends water to its designed area during every single second of the wash cycle. It's a non-stop washing system.

### STANDARD FEATURES:

- Door opening height 40 cm
- Waterproof IP 44 pump
- Standard boiler thermometer
- Standard tank thermometer
- Stainless steel tank AISI/304 1mm
- Automatic start by closing the hood
- Double tank's filters
- Closed hood from sides
- Capability of 50x50 cm or 54x54 cm basket

# DISH WASHER PDW 3800A

## Technical Data

Power supply	400V / 50Hz
Total power	9.1 KW
Pump power	1.5 HP
Electric absorption	22.75A
Boiler heating element	8000W
Tank resistance	6000W
Boiler capacity	13.5 lit
Tank capacity	68 lit
Water pressure	3-6 bar
Water consumption per cycle	2-3 lit
Dishwasher dimensions	75 x 880 x 1412 mm
Basket dimensions	500x500 mm / 540x540 mm
Length of cycle	120 SEC
Weight net / gross	131.5 Kg / 148 Kg
Water connection	3/4"
Draining pipe	Ø32 - Ø35
Stainless steel cabinet	18/8 A ISI 304
Package dimensions	760 x 900 x 1540 mm

### ADDITIONAL FEATURES:

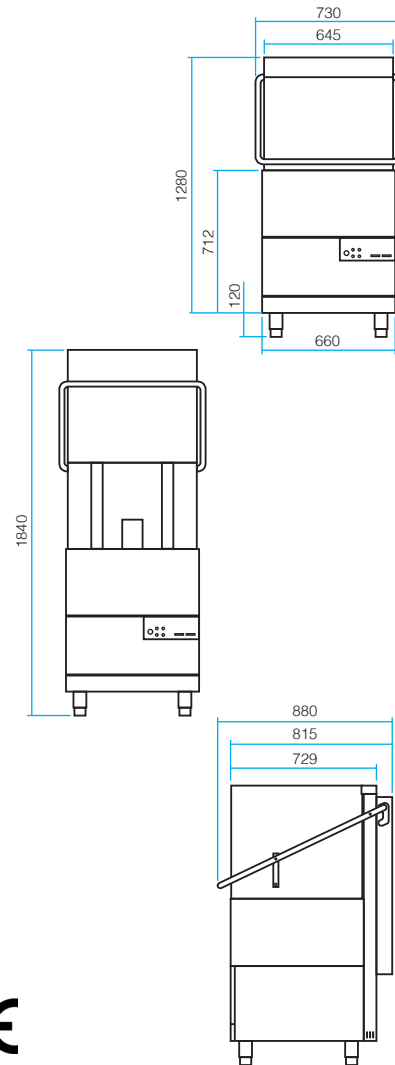

- Automatic filling
- Door safety
- Rinse aid valve
- 3/4" pressure hose
- Drain hose
- Thermal protection for boiler and tank
- 1 basket for glasses
- 1 basket for dishes
- 1 basket for cutlery
- Tank thermometer
- DVGW valve

### AVAILABLE OPTIONS:

- Detergent pump
- Tank Draining pump

## Detail & Dimensions
